As of November 5, 2026 · Document 2026.11.016

SUMMARY

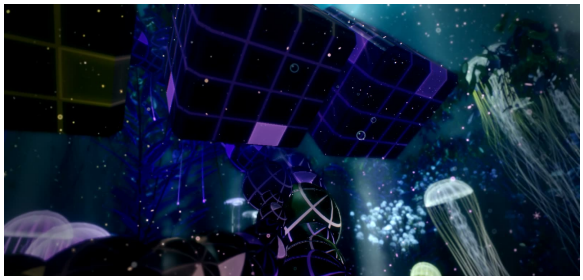

Right past large jellyfish: pulsing bells, glassy jelly with canals and gonads, frilled oral arms, tentacles with stinging knots and pulses of light – in calm slow motion.

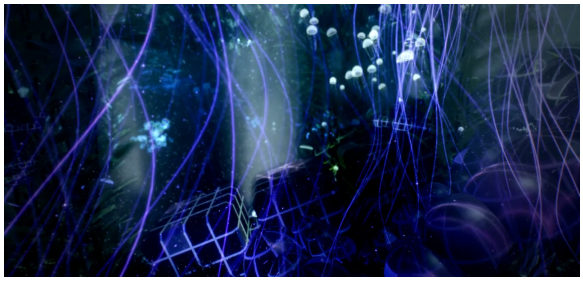

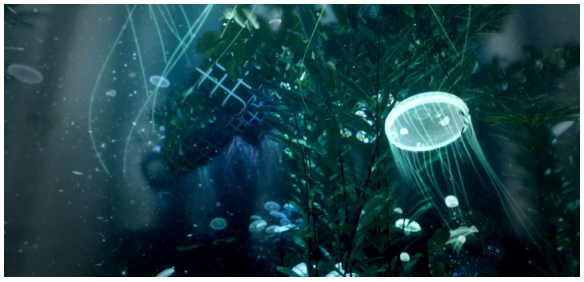

BACKGROUND

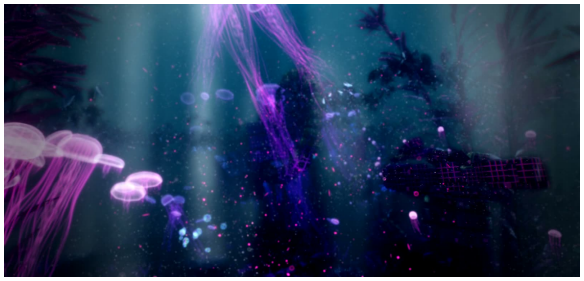

This work belongs to the Art World Water series, a flight through an endless sea of light in which jellyfish with glowing tentacles drift and the sculptures of the Sculpt series stand. The series is described under “Art World Water – Quallenvorhang”, its first work.
