ART WORLD WATER – TANGWALD

Giant kelp in the light of the surface

TOBIAS POST

As of November 4, 2026 · Document 2026.11.012

SUMMARY

Golden-brown giant kelp grows from the seabed to far above the flight path, shafts of light fall through the gaps, plankton glitters in the light – and in between drift swarms of jellyfish.

BACKGROUND

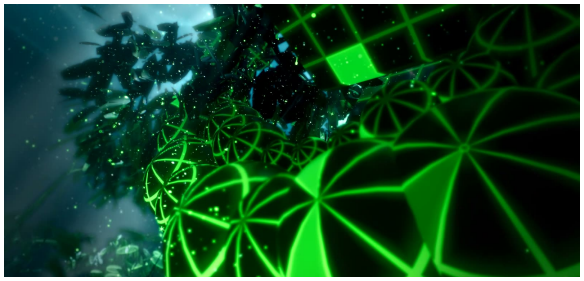

This work belongs to the Art World Water series, a flight through an endless sea of light in which jellyfish with glowing tentacles drift and the sculptures of the Sculpt series stand. The series is described under “Art World Water – Quallenvorhang”, its first work.
